

BLUETOOTH UHF RFID Reader & Writer

(P/N: HKRUR-DR01)

To Maximize your Work Efficiency !!!

EASY TO ACCESS

Computer

EASY TO READ

PDA

EASY TO CARRY

Smart Phone

Extended Battery
For long working hours.

Cost Effective
Lower Cost than Mobile Reader.

Easy to Read
Read Tag Info. on user's own device.

Long Distance Communication
High Speed reading with long distance multiple tag reading.

Easy to Adpot
DR01 connect with any devices with bluetooth.

Compact & Light Design
DR01 has compact, slim, & light body for user's work conveniences.

Bluetooth Communication

- Built-in UHF RFID Module and Antenna
- Bluetooth 2.0 connection with any host which can support Bluetooth.
- For Traceability, Distribution, Transportation, Management and so on.
- 90° Swivel Antenna Design

APPLICATIONS:

Stock Management

Security

Warehouse Management

Asset Management

PRODUCT SPECIFICATION:

Model	HKRUR-DR01
Max output	1W
Protocol	ISO 18000-6C, EPC C1G2
Frequency	860~960MHz
Communication	FHSS
Variation	PR-ASK
Interface	Bluetooth 2.0EDR / USD 1.1 Compatible / UART 3.3V,3-wire
Battery	Rechargeable 2350mAh lithium polymer battery
Working temperature	-20°C~50°C
Storage temperature	-40°C~70°C
Dimension	148mm * 51mm * 30mm (H * W * D)
Weight	170g
Charge	20pinTTA

* Remarks:

Box package includes a cable, a DC adaptor, a battery, a hand strap and a CD disc.
