

# Axper - Real-time Performance Index Management Software

**Axper Sentinel software, with Vision II cameras, allows real-time management of performance metrics such as:**

- Traffic per zone
- Site or zone occupancy rate
- Average time per zone
- Queue management
- Service delay
- Presence detection
- Other metrics customizable according to user needs

The image displays two views of the Axper Sentinel software interface. The top view is a desktop monitor showing a monitoring dashboard. The interface includes a navigation menu with 'Monitoring', 'Configuration', 'Reports', and 'My preferences'. A sidebar on the left lists zones (Zone 1 to Zone 4) with corresponding status indicators. The main area shows a floor plan with zones highlighted in green and red. A data popup for 'Zone 2' displays metrics: 11 Queue Occupancy, 4.9 Average Transaction Time, and 2 Open Cash Register. The bottom view is a mobile phone displaying a simplified interface with a search bar and a data table.

Section	Zone	Time Series	Value	Next refresh: 11:14:00
Zone 1	Section	Zone	Time Series	Value
Zone 2	Section	Zone	Time Series	Value
Zone 3	Section	Zone	Time Series	Value
Zone 4	Section	Zone	Time Series	Value

# SENTINEL

## Other functionalities offered by Sentinel:

- Customization of metrics
- Production of metrics history reports
- Configuration of metrics thresholds
- Sending of alerts by e-mail at specified metrics thresholds
- Automatic or manual resetting of metrics
- Manual adjustment of customized metrics
- Real-time version compatible with iPhone, iPad, Android and BlackBerry.
- Real time Widget for Windows stations

### Software Requirements

- Microsoft 2003 SP2 server or higher
- Framework.NET 4.0 or higher
- Microsoft SQL Express 2008 R2 server or higher
- Windows Installer 4.5
- Microsoft PowerShell 1.0
- IIS 5.1 or higher
- Browsers: IE 9 or higher, Firefox 8.0 or higher and Chrome 16.0 or higher
- Mobile platforms: BlackBerry\*, iPhone 3G and 4G, Android 2.3 or higher

### Material Requirements

- Disk space (DB and software): minimum 4 Gb
- RAM: minimum 4 Gb

\* BlackBerry models may not be 100% compatible with Sentinel. Please check with your Axper representative.
